

Explanatory notes on forms

Application form

The application form is provided as a separate document on the website of the nestor Seal. The applicant fills in the form and submits it to the nestor-officer. The nestor-officer adds his or her contact information, appends the assessment form and sends it back to the applicant.

Assessment form

Please note: the form uses „hidden elements“. These elements are exclusively used for communication by the nestor-reviewers.

The applicant fills in the assessment form and sends it to the nestor-officer, who will forward it to the nestor-reviewers. The nestor-officer handles all communication between the applicant and the reviewers. At the end of the evaluation process the nestor-officer sends the reviewed assessment in form of a PDF to the applicant. If the applicant agrees with the result, the PDF is published. Minor editorial changes can be done by the nestor-officer.

The assessment form is not a substitute for the explanatory notes on the nestor Seal. It is expected that the applicant uses both documents to avoid insecurities.
